

The SEC (The Sunshine Education Coalition) team are leaders and experts with over 75 collective years of experience connected to youth advocacy, educating youth and family and community engagement success.

Our focus is on minority and LGBTQ students who have consistently been impacted by social injustices and racial disproportionalities of disciplinary policies in school. Because of these policies those students receive harsher discipline and are more likely to be pushed out of school which serves as a direct path to the school-to-prison pipeline.

SEC makes recommendations to public school institutions which should be implemented with fidelity in order to improve the overall outcome of success for Black students.
